

Whitney M. Young Magnet School

BUILDING A

BUILDING A

BUILDING C

BUILDING C

Building type
K-12 High School

Location
Chicago IL

Site Area
N/A

Project Area
156,000

Client
Chicago Public Schools

Completion Year
Glazing and Roof Replacement 2022-2024

Construction Cost
\$ 15.32 Million at Bid

Design Response: The existing glazing is thermally inefficient and does not meet current design and constructability standards.

We are replacing the entire glazing for both Buildings A&C, as well as the two bridge connectors with a fully captured thermally broken glazing system that meets current design standards. Additionally we shall deal with the thermal analysis and building commissioning

The area of replacement is approximately 48,500 sf of system
